Web Programming

Assignment 3

Date : 2/June/2021.

Submission Deadline: 7/June/2021, 8:30 am (UK Time).

Question 1: (30 Marks)

- You are required to create the following webpage (Figure 1). You need to demonstrate the use of different HTML elements and attributes. (Note that the underlined blue sentences are linked to pages from the University of the West of England website). It should work with Google chrome and Firefox. So, please test it before submission.
- You are required to provide a document to explain the use of different HTML tags.

Distribution of marks :
- 10 marks will be allocated for the accuracy of the results and how well the created page reflect Figure 1 (font, hyperlinks, colours, etc.)
- 10 marks will be allocated for demonstrating the use of H1, H2, Header, Footer, Section, Article tags, etc.
- 10 marks will be allocated for the document that explain the use of HTML tags.
- The students should attend individual presentation (if any student couldn't do a presentation then, he will take 0 out of 30).
